**Professional Summary:** As an Entry-level Full Stack Developer, I'm enthusiastic about enhancing usability, crafting appealing designs, and making a positive impact on society. My background in product development has equipped me with advanced problem-solving abilities, a preference for working collaboratively, and a keen eye for detail.

## SKILLS

---

**Languages:** HTML, CSS, JavaScript, Python

**Frameworks/Libraries:** React, Redux, React Native, Bootstrap, Mongoose, Express, NPM

**Scripting:** bash shell

**Databases/server:** MongoDB, Node.js, Firestore

**APIs:** Firebase, Chrome Extension

**Version Control:** Git Hub

**Visual Editing:** Photoshop, Illustrator

## WORK EXPERIENCE

---

Dwishes

Jul. 2023 – Present

### Freelance Full-Stack Developer - [Remote](#)

- Successfully deliver 5 milestones and receive code reviews from a senior developer.
- Translate wireframes into components in JavaScript React which make API calls to the server.
- Build and test CRUD cloud functions in Node.js which create an environment for backend code to run in the serverless Firebase cloud.

Nili Lotan

Nov. 2022 – Jun. 2023

### Product Developer – [New York, NY](#)

- Prepared materials and schedules to orchestrate the creation of 400+ garments every season.
- Converted intangible design standards into technical documentation to bridge the gap between design and production teams.

## PROJECTS

---
