Professional Summary: As a Full Stack Developer, I love seeing the big picture. I'm always thinking about the end user and how everything, from optimized speed on the backend to elegant design on the frontend, is part of the experience. I'm a big believer in communication and teamwork, and I prefer to work on small, fast-paced teams.

SKILLS

Languages: HTML, CSS, JavaScript, Python
Frameworks/Libraries: React, Redux, React Native, Bootstrap, MUI, Mongoose, Express, NPM
Scripting: bash shell

Databases/server: MongoDB, Node.js, Firestore
APIs: Firebase, Chrome Extension
Version Control: Git, GitHub
Visual Editing: Photoshop, Illustrator, Figma

WORK EXPERIENCE

Software Harmonics / Data Annotation / Dwishes

Jul. 2023 – Present

Freelance Full-Stack Developer – [Remote](#)

- Data Annotation
 - Evaluate AI-generated code in python and JavaScript for correctness and efficiency.
- Software Harmonics, LLC.
 - Implement mobile responsiveness for an existing ERP web application by creating Figma UX wireframes and implementing with the React MUI library.
- Dwishes
 - Delivered 7 new features with JavaScript React, Node.js, and Firebase cloud for a data-entry app startup, Dwishes.

Nili Lotan

Nov. 2022 – Jun. 2023

Project Manager – [New York, NY](#)

- Prepared materials and schedules to orchestrate the creation of 400+ garments every season.
- Eliminated errors in production via continuous testing and communication during development
- Converted intangible design standards into technical documentation to bridge the gap between design and production teams

Bode

Jun. 2021 – Nov. 2022

Project Manager – [New York, NY](#)

- Started as a studio assistant, and over the course of 6 months I eagerly took on more responsibility until I was overseeing production of the main collection
- Working directly with the VP, we improved on-time percentage from 30% to 75%
- Meticulously reviewed and re-developed products to maintain high standards of design and quality

PROJECTS

Grandma's Kitchen – actively used MERN stack recipe database – [DEMO](#) | [APP CODE](#) | [SERVER CODE](#)

Word of Mouth - collaboratively-built MERN social web app - [DEMO](#) | [APP CODE](#) | [SERVER CODE](#)
